CATANA

# See the difference

Catana front doors are the focal point of any home; designed to reflect a home's value and an owner's character.

Available in multiple configurations, Catana front doors incorporate features that are anything but standard, including:

- A multi-point locking system that secures the door at five points along the frame
- High-efficiency, shatterproof glass that prevents air transfer to and from the outside
- Endless colour and style options so you can customize your front door to perfectly match your home

This is a small sample of what Catana offers.
